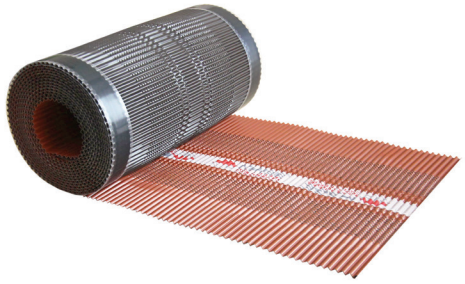
Product overview

Mage Alu Roll MS is a ridge and hip roll made of high-quality solid aluminum and two butyl adhesive strips on the back. It offers lasting protection in all weather conditions and, with an elongation factor of up to 30%, achieves optimum conformability to the roofing.

- Optimal protection against flying snow and rain penetration
- Excellent conformability to the covering material
- Straight alignment ensured by the nail strip
- Ventilation cross-section in accordance with DIN 4108 Part 3
- Protection against insects and birds entering the building
- Permanent UV color fastness
- ZVDH warranty



Technical specifications

Specifications	
Technical	
Colour	Red
Colour indication	RAL 8004
Material	ALU
Performance	
Ventilation capacity linear	126 cm^2/m
Adhesive material	Butyle
Self adhesive	☑
Stretch length	30 %
Stretch width	0 %
UV resistance	☑
Dimensions	
Length gross	5 m
Length gross	5,000 mm
Width	210 mm
Height	210 mm
Length nett (working length)	5 m
Length nett (working length)	5000 mm
Thickness	2.6 mm
Net weight	0.75 kg
