Product overview

The climbing grid unit is a universal complete system consisting of two supports with tread shells, a 400 mm climbing grid, and fastening materials for safe climbing on sloped roofs.

- Flat for 30 x 50 mm battens
- Weather-resistant, durable, and corrosion-resistant
- Infinitely adjustable mounting brackets
- Tested in accordance with the currently valid DIN EN 516 standards and guidelines
- For roof pitches from 15° to 60°
- Suitable for plain tiles, clay tiles, and concrete roof tiles
