## Product overview

Mage FiRo-Light Plus is a ridge and hip cap made of a special aluminum composite with two WCS adhesive strips on the back. It offers lasting protection in all weather conditions and, with an elongation factor of 30%, achieves optimum conformability to the roof covering.

- Optimal protection against driving snow and rain penetration
- Excellent formability thanks to special aluminum composite material
- Easy bending at the ridge and hip battens thanks to prefabricated bending beads
- Straight alignment guaranteed by the nail strip
- Ventilation cross-section in accordance with DIN 4108 Part 3
- Protection against insects and birds
- ZVDH warranty & QNG certified
- WCS also adheres to cold and damp, but ice-free surfaces

## Technical specifications

| Specifications | |
|---|---|
| **Technical** | |
| **Colour** | Red |
| **Colour indication** | RAL 8004 |
| **Material** | ALU/PET |
| **Performance** | |
| **Ventilation capacity linear** | 200 $cm^2/m$ |
| **Adhesive material** | WCS |
| **Self adhesive** | ☑ |
| **Stretch length** | 30 % |
| **Stretch width** | 0 % |
| **UV resistance** | ☑ |
| **Dimensions** | |
| **Length gross** | 10 m |
| **Length gross** | 10,000 mm |
| **Width** | 300 mm |
| **Height** | 300 mm |
| **Length nett (working length)** | 10 m |
| **Length nett (working length)** | 10000 mm |
| **Thickness** | 2.2 mm |
| **Net weight** | 1.4 kg |
