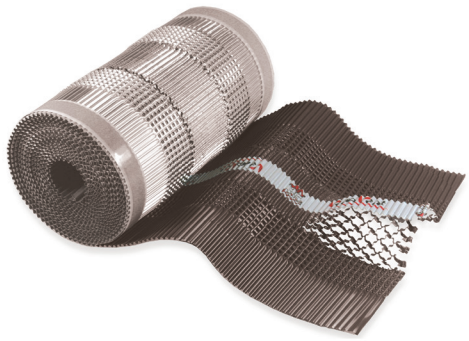
Product overview

Mage VarioVent is a variable-width ridge and hip cap made of high-quality solid aluminum with two butyl adhesive strips on the back. It offers lasting protection in all weather conditions and, with an elongation factor of 30%, achieves optimal conformability to the roof covering.

- Optimal protection against driving snow and rain penetration
- Excellent conformability to the covering material
- Integrated stretch range of up to 6 cm
- Straight alignment ensured by the nail strip
- Ventilation cross-section in accordance with DIN 4108 Part 3
- Protection against insects and birds
- ZVDH warranty & QNG certified



Technical specifications

Specifications	
Technical	
Colour	Brown
